Doing Business with RTTC

Partnerships

Redstone Technical Test Center (RTTC) is part of the U.S. Army Test and Evaluation Command/Developmental Test Command. The Center supports development of Army materiel – providing comprehensive test services to private industry; government research, development, and engineering laboratories; and Program/Project Management Offices. RTTC provides cost estimates to private industry that are included in competitive proposals; however, we cannot enter into exclusive partnerships that would deny support to other organizations.
